16 Which company developed JavaScript?  
**NEXT** →

Sun Microsystems

IBM

Bell Labs

Netscape

17 Which of the following is the correct statement for comment in JavaScript?

/\*This is a comment\*/

\$This is a comment\$

///This is a comment

\\This is a comment

18 JavaScript is designed for the following purpose:

To style HTML pages

To execute Queries related to databases on a server

To add interactivity to html pages

All of the above

← **PREVIOUS**

19 The meaning for augmenting classes is that

**NEXT** →

- objects inherit prototype properties in static state
- objects inherit prototype properties only in dynamic state
- objects inherit prototype properties even in dynamic state
- None of the mentioned

20 To include external JS code inside an HTML document which attribute is used?

- src
- link
- script
- ext

21 The “function” and ” var” are known as:

- Keywords
- Special keywords
- Declaration statements
- Prototypes

**←PREVIOUS**

22 **NEXT** → Which of the following function of the String object returns the calling string value converted to upper case?

toLocaleUpperCase()

toString()

substring()

toUpperCase()

23 What are the types of Pop up boxes available in JavaScript?

Confirm

Prompt

Alert

All of the above

24 The property of the JSON( ) method is:

it will be automatically invoked by the compiler

it is invoked automatically by the JSON.stringify() method

it can be invoked manually as object.JSON()

it cannot be invoked in any form

**←PREVIOUS**

25 Spaces, Punctuation marks are called as \_\_\_\_\_ Symbols in JavaScript.

**NEXT** →

Special

Punctual

Mandatory

None of the above

26 Which of the following are the errors in JavaScript?

Load time errors

Logical Errors

Run time errors

All of the above

27 Comments in JS are ignored by \_\_\_\_\_

Browser

JVM

Operating System

Compiler

**←PREVIOUS**

31 Which of the following statement is correct for AngularJS?

**NEXT** →

AngularJS is an HTML framework

AngularJS is a Java framework

AngularJS is a JavaScript framework

AngularJS is a SQL framework

32 On which of the Architectural pattern AngularJS is based?

Observer Pattern

Decorator pattern

MVC Architecture pattern

MVVM Architectural pattern

33 AngularJS is perfect for?

SPAs

MPAs

DPA's

CPAs

34 Do AngularJS provide reusable components?

Yes

No

**← PREVIOUS**

35 **NEXT** → Which of the following directive is used to bind the application data to the HTML view in AngularJS?

ng-app directive

ng-model directive

ng-bind directive

ng-init directive

36 Which of the following syntax is correct for applying multiple filters in AngularJS?

{{ expression | filter1 | filter2 | ... }}

{{ expression | {filter1} | {filter2} | ... }}

{{ expression - {filter1} - {filter2} - ... }}

{{ {filter1} | {filter2} | ...-expression }}

37 Which of the following statement is true about the lowercase filter?

The lowercase filter converts a text to lower case text.

The lowercase filter is a function that takes text as input.

Both of the above.

None of the above.

← PREVIOUS

38 Which of the following is an advantage of AngularJS?  
**NEXT** →

AngularJS code is unit testable.

AngularJS provides reusable components.

AngularJS uses dependency injection and makes use of separation of concerns.

All of the above

39 Which of the following statement is true about \$dirty flag?

\$dirty flag is used to state that value has been changed.

\$dirty flag is used to state that the form has invalid data.

Both of the above.

None of the above.

40 What will be the output for the following code?  
The output is {{ points[2] }}

The output is 1

The output is 15

The output is 19

The output is 2

← **PREVIOUS**

41 **NEXT** → Which of the following syntax is used to create a module in AngularJS?

var myModule= angular.module();

var myModule= new Module();

module("app", []);

None of the above

42 Which of the following is used to share data between controller and view in AngularJS?

using Model

using services

using factory

using \$scope

43 Which of the following statement specifies the data-binding in AngularJS?

Synchronization of data between the model and view components.

Synchronization of data between the model and controller components.

Synchronization of data between the controller and view components.

None of the above

Questions > Questions

Flag this page

**←PREVIOUS**

44 Which of the following is not a valid AngularJS filter?  
**NEXT** →

lowercase

orderby

email

currency

45 Who is known as the father of AngularJS?

Brad Green

Misko Hevery

Adam Abrons

Mike Adams

46 Which of the following directive is used to bind the value of HTML controls to application data?

ng-app

ng-init

ng-model

ng-hide

← **PREVIOUS**

47 Which of the following community Angular JS belong to?

**NEXT** →

Twitter

Facebook

Google

Microsoft

48 A module created by using the AngularJS function is called?

module();

module()

mod()

angular module()

49 Which of the following types of the component can be used to create a custom directive?

Element directives

Attribute

CSS

All of the above.

**← PREVIOUS**

50 Which file is responsible for startup of angular 2 project ?

**NEXT** →

main.ts

index.js

app.ts

angular.cli.json

51 Which of the following is the correct way to apply a filter?

Property-value | filter

Property-value || filter

Property-value && filter

None of the above

52 Interpolation in angular 2 is done using

{{}}

{{{}}}

{{|var}}

!!!!

**←PREVIOUS**

53 Which of the following filter is used to convert input to all uppercase?

NEXT →

upper

uppercase

toUpper

None of the above

54 Which of the following is not a hook in Angular 2 application life cycle.

ngOnInit

ngOnChanges

ngAfterViewInit

ngViewStart

55 Which of the following service has Angular 2, that allows us to dynamically load a component in a certain position on the page?

DynamicComponentLoader

DynamicControlLoader

DynamicControllerLoader

None of the above

← PREVIOUS

56 Which of the following option is using Angular 2 to detect changes.

**NEXT** →

Scope.js

zone.js

zones.js

zone\$.js

57 Needs cleanup step before compiling

Need to maintain AOT version of bootstrap file

Works only with HTML and CSS

Detect error at build time

None of the above

58 Which of the following is not a feature of Angular 2?

Components

Multithread

TypeScript

Services

**← PREVIOUS**

59 To start working with Angular 2, we need to install the \_\_\_\_\_ components.

**NEXT** →

Npm

Editor

GIT

All of the above

60 Which of the following option is correct about tsconfig.json?

This file contains information about Angular 2 project.

This file contains the system files required for Angular JS application.

This file is used to give the options about TypeScript used for the Angular JS project.

All of the above

61 Which of the following option is correct about tsconfig.json?

True

False

**←PREVIOUS**

62 **NEXT** → How does Angular 4 improved error handling, when an error is caused by something in a template?

By enabling TypeScript's StrictNullChecks

By creating flattened versions of Angular modules

By generating source maps in terms of original template

None of the above

63 How would you retrieve a list of items from a server's URL?

Create a URL transaction

Use the HTTP get method

Create a get SQL statement

Use an HTTP package
